INNOVATION

QUALITY

TRUST

▪ Company Profile

Charan Food Tech (CFT) is a well-established company serving the Food Processing Industry since 1998.

We specialize in the design, manufacturing, and supply of advanced food processing equipment, including filling, mixing, forming, flattening, frying, and slicing machines, among many others.

▪ Vision

To be the world leader in delivering latest and high technology machines and equipments, solutions and services for snack food Industry to value add and enhance the customer delight and to be associated with research opportunities to impoverish value added end-to-end services & products to the snack food industry.

▪ Mission

Providing tradition of excellence in snack food equipments, exceeding our clients expectations and get recognition locally and globally through:

- Building robust client loyalty
- Providing customized solutions
- Adopting optimal engineering methodologies to lessen the time of production, dependency on human resources and strengthen best quality and quantity working conditions, hygiene etc.

▪ Infrastructure

Our manufacturing unit is spread over a total plot area of 20000 sq. ft. with optimum install capacity that is sufficient to prove in the terms of robust infrastructure. We have equipped this spacious unit with necessary machines and equipments that facilitate flawless production of our wide range of food processing machines.

▪ Value

In order to realize our vision through the mission on hand, CFT ensures that every choice, decision and action is based upon the following core values

Commitment: We are committed to the best quality standard of our equipment and constantly introspect and improve our insight into the market place and the real needs of customers of food industry. We are committed to teamwork and partnership with employees, shareholders, customers and the community.

Quality: We shall constantly strive to improve upon our products and services and shall innovate in doing things better such that total quality is achieved in every sphere of activity

■ Director's Message

Dear Clients

Just in a decade Charan Food Tech has equipped and established itself as a leader in developing and delivering highly innovative, cost effective Food Processing Machines and Equipment on the basis of its continuous Efforts, Research & development, and highly dedicated resources.

We have organized ourselves in all segments of the products from batch type, Semi-automatic to Fully Automatic Lines for the Snacks Food Industry.

We believe that technology holds the key to success and therefore we are committed for delivering the same at our end. We are committed to total customer satisfaction by identifying their specific needs, translating them into innovative products.

Selecting a right business partner who can work with your vision, able to deliver customized solutions while increasing the process efficiency is our forte. When you choose CFT as your partner you get access to our innovative products, solutions and services.

On behalf of CFT, I therefore, seek continuous patronage of our valued customers, cooperation of our team and thank our well-wishers who have kept their confidence with us and contributed to the growth of the organization.
